### **DETAILED ACTION**

1. This communication is in response to Applicant's amendment filed on 25 February 2005.

#### ***Status of Claims***

2. Claims 1, 5, 10, 12, 15, 19, 24, 28, 33 and 38-46 are currently amended. Claims 2-4, 6-9, 11, 13, 14, 16-18, 20-23, 25-27, 29-32, and 34-37 are originally filed. Therefore claims 1-46 are under prosecution in this application.

#### ***Allowable Subject Matter***

3. The following is a statement of reasons for the indication of allowable subject matter.

The prior art of record (Tyler U.S. Patent 4,992,939) teaches a method of producing narrative analytical reports by calculating a financial value such as standard ratios and comparing the financial value in the set with one or more financial values associated with other business entities. Assigning a True or Not True score to one or more of the financial values in the set, wherein each assigned score reflects an assessment of financial performance of the business entity relative to other business entities within the selected industry. Then selecting one or more portions of stored text corresponding to the True or Not True verdict, wherein the one or more

Art Unit: 3624

portions of stored text comprise narrative financial analysis information to produce a narrative financial report, see column 4, lines 20-67 and column 5, lines 3-44.

The prior art of record fails to teach a method of producing a financial analysis report for a business entity, the method comprising the following operations performed by a data processing system by combining two or more scores to produce a combination of the two or more scores; selecting one or more portions of stored text corresponding to the combination of scores, wherein the one or more portions of stored text comprise narrative financial analysis information; and building a document from the one or more portions of selected text to produce a narrative financial analysis report for the business entity, the narrative financial analysis report including text explaining a meaning of the combination of scores in a narrative format as disclosed in the specification, pages 35, line 1 thru page 37, Table 26. For these reasons claims 1, 5, 10, 12, 15, 19, 24, 28 and 33 are deemed to be allowable over the prior art of record, and claims 2-4, 6-9, 11, 13, 14, 16-18, 20-23, 25-27, 29-32, and 34-46 are allowable by dependency.

4. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
